

Applied Vocabulary Online

WHAT IS APPLIED VOCABULARY ONLINE?

Applied Vocabulary Online is a system of writing strategies for building students' vocabulary across content standards. Teachers choose from over 12 critical-thinking writing strategies to support the essential question of a lesson. Students respond with a strategy to explain what they understand with logical inferences or insight.

This systematic approach to writing empowers students to explain what they have learned in a different way than the teacher taught it. Teachers are prompted to:

- Quantify their expectations (number of key terms used in the writing)
- Model a written response that exceeds their expectations
- Guide student choices with a critical-thinking strategy
- Secure student self-assessment with a scoring rubric
- Prompt peer response to the quality of writing with PALS (peer-assisted learning system)

Applied Vocabulary Online

- Engages students with openers and closers for productive work sessions
- Creates "paper trails" of learning in any course of study
- Logs notes and observations for student reflection and parent conferences
- Supports formative assessment of student knowledge

Over three decades of research confirms the positive impact writing has on learning across the content standards.

FEATURES AND BENEFITS

Significant growth in the mastery of ELA, math, science, and social studies standards

Double-digit growth on indexes of college and career readiness

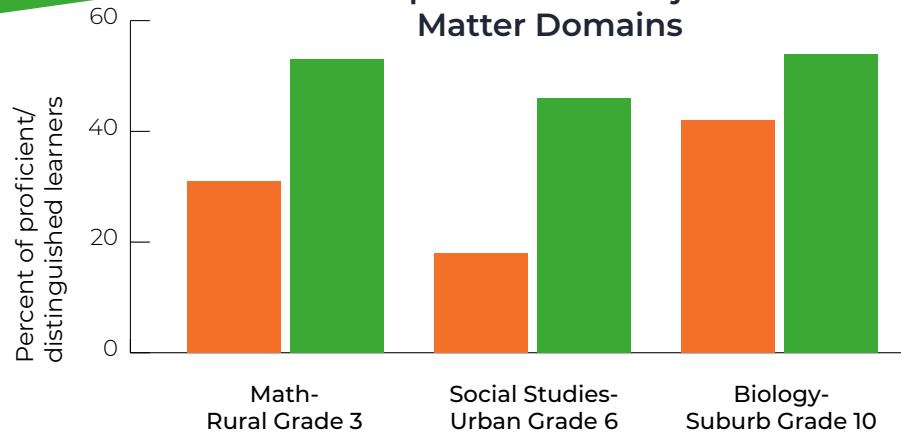

Movement from linear thought to confident inferences and analogies

A shift from a world of right answers to logical insights

Applied Vocabulary Online

Impact Across Subject Matter Domains

■ 1 Year Prior to Applied Vocabulary Online (AVO)
